Founder/President

Co-Founder/Chairman

Aspirations

- World's best business factory
- World leader in world improvement
- Build on strengths
- Value people and their contributions

Who is an Angel Investor?

An Angel is a person who invests his/her own money and time in an unlisted growth company as a personal decision with the objective of realising a capital return in the foreseeable future.

Financial Capital + Intellectual Capital

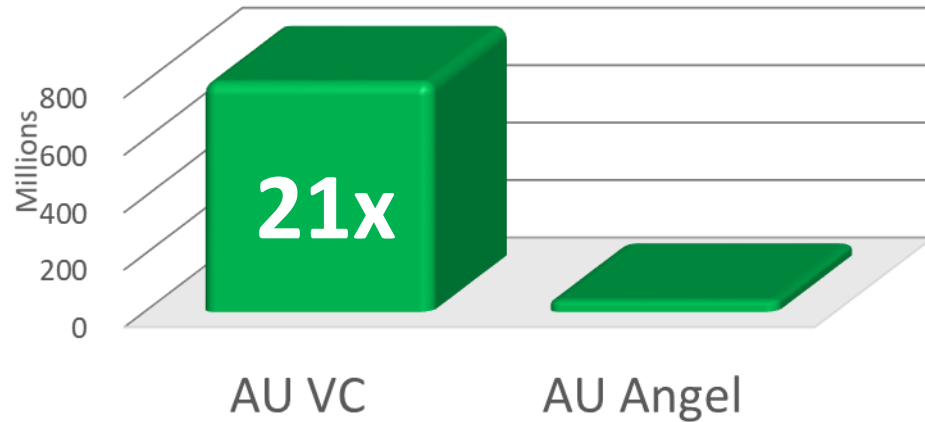

ANGELS ONLY SUCCEED WHEN FOUNDERS SUCCEED

The VC Pipeline Myth

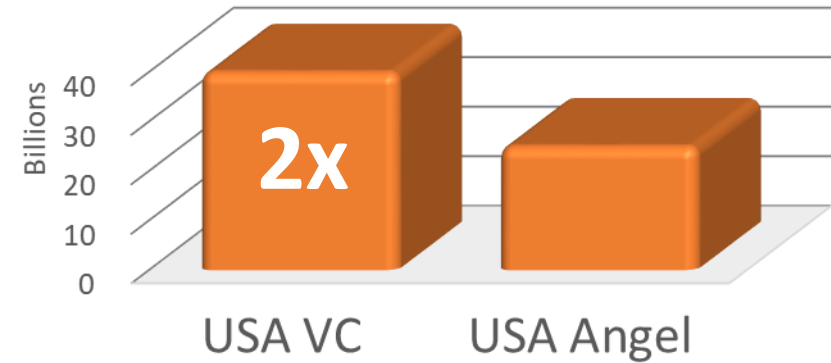

Invested (\$m)

The Work of an Angel Investor

INVESTMENT LIFE CYCLE PROCESS WITH TEAM RESPONSIBILITIES & TIMING

\$500k investment

2010
[7-12]

\$25-50k
each

2020
[25-50]

\$10-20k
each

2030
[50-100]

\$5-10k
each

Challenges

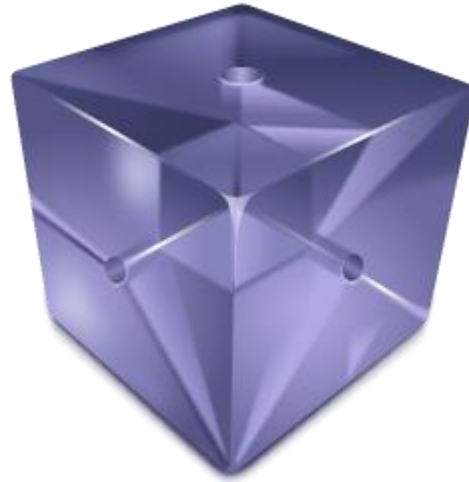

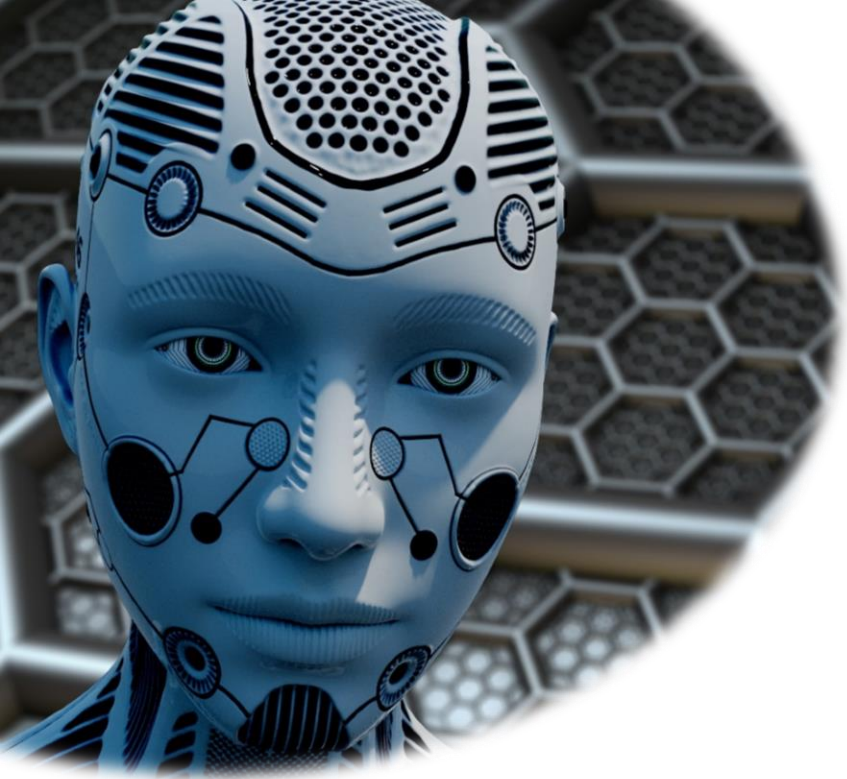

- More people than jobs - people faster than jobs
- Live & work longer
- Wages don't pay living costs
- Climate change demands investment and painful change
- Privacy gone, or digital business models broken
- Education does not lead to a job
- Venture capital isn't helping

Challenges

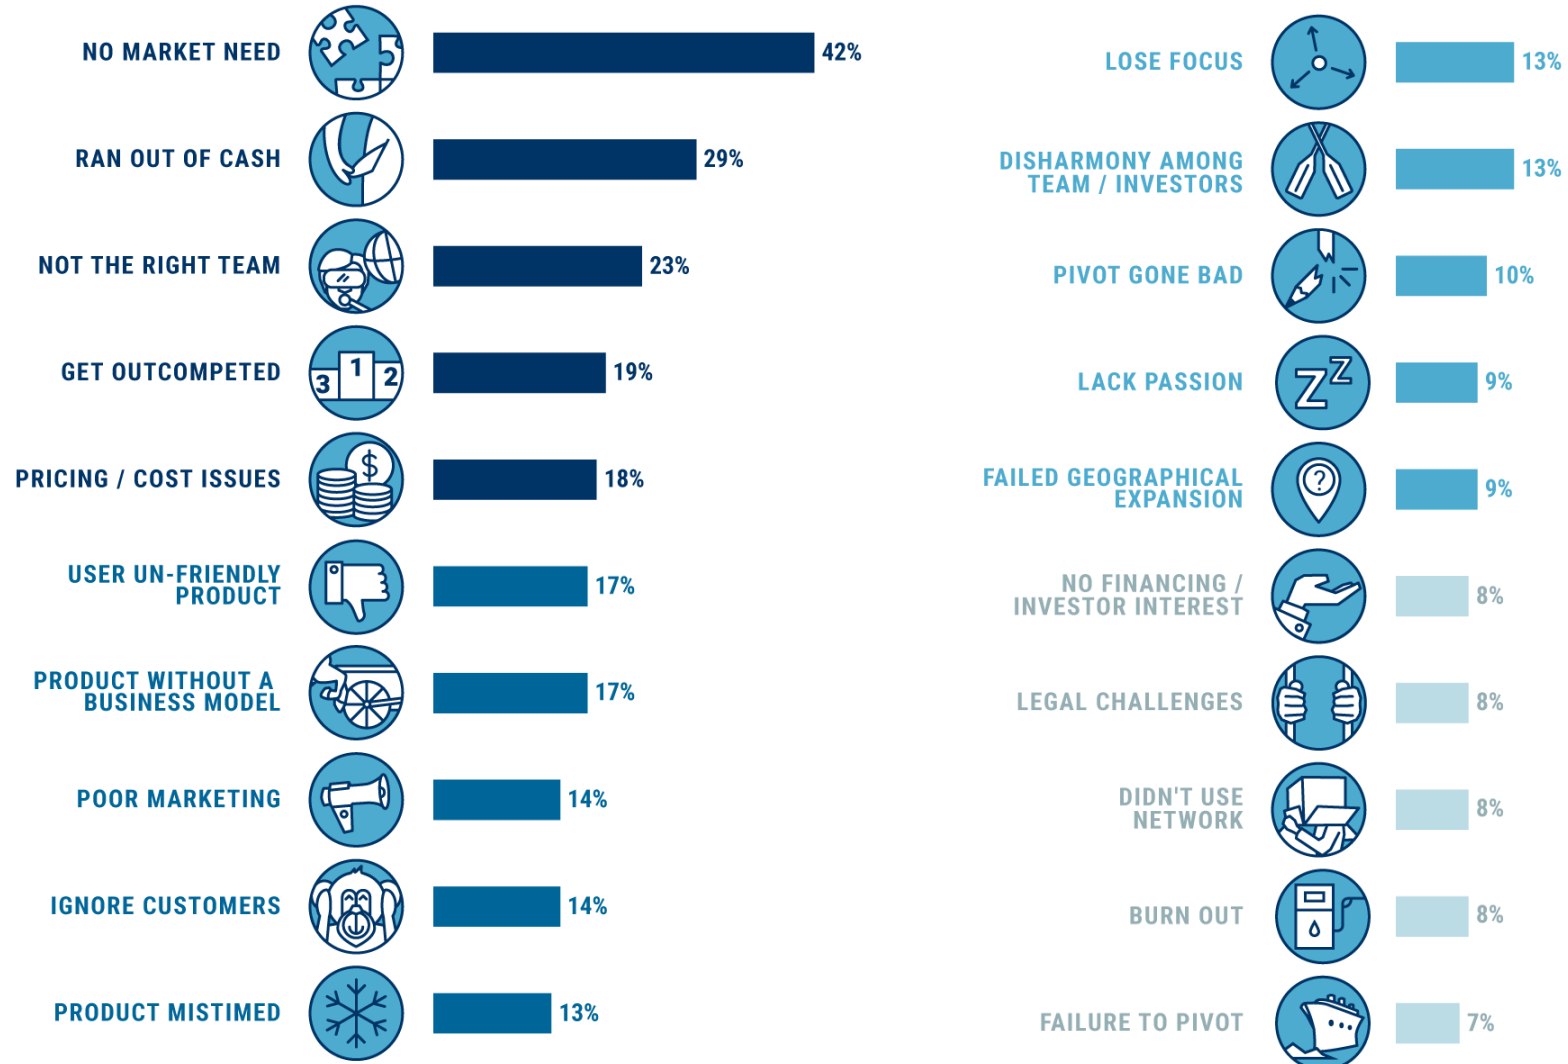

- Arrogance before experience
- Failure of political leadership
- Economic uncertainty
- Shifting global power
- Australia lacks core competency
- Political & corporate leadership don't know & don't want startup economy

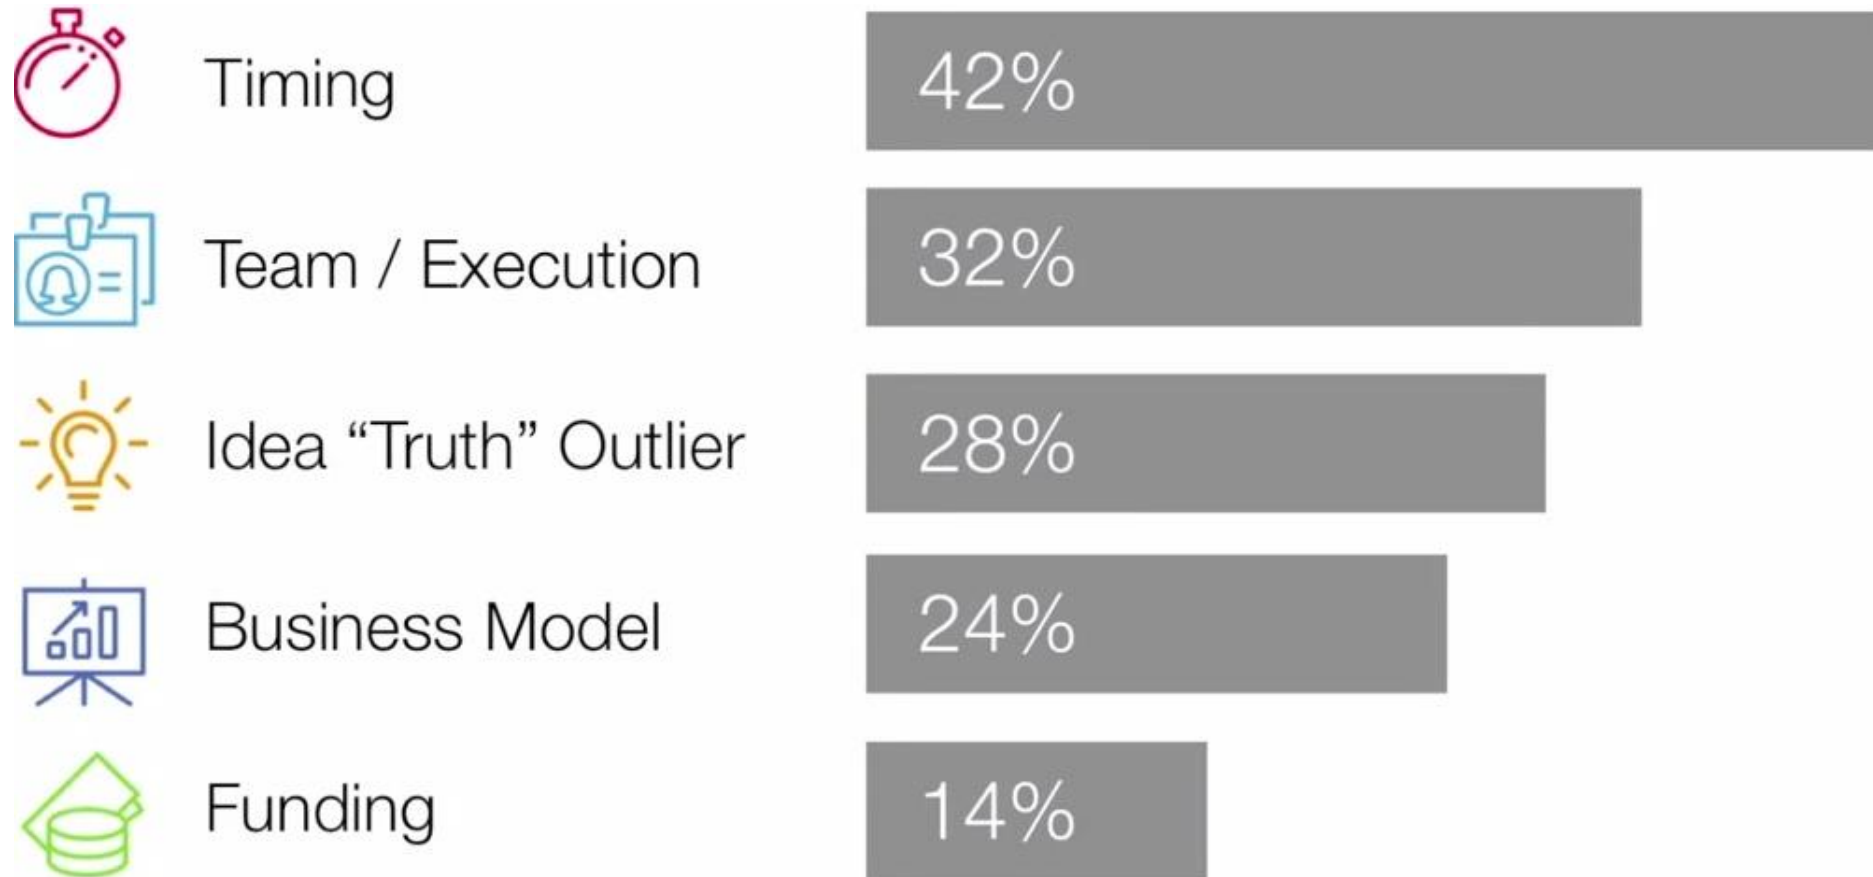

Top 20 Reasons Start-ups Fail

[CBInsights Feb 2018]

Top 5 Reasons Start-ups Succeed

[Bill Gross March 2017]

buildtech watertech securetech kitchentech
healthtech deeptech arttech
fintech enttech
medtech constructech sportstech
softtech proptech VRtech edtech
