

## Transcript

**Title:** Victorian Hydrogen Hub (VH2)

**Creator:** Victorian Hydrogen Hub

**Year:** 2021

**Logo:** CSIRO (Hydrogen Industry Mission) and Swinburne University of Technology

The silent video shows a fly-through of the proposed hydrogen technology refuelling system and demonstration hub.

We see a 3D virtual rendering of the hub beginning with an aerial view before entering the building.

We move through the interior of the building and see infrastructure, equipment and human figures in operating mode.

Outside of the building, we see a car approaching the hydrogen refuelling station located on the side of the hub.
