SOCIAL CONNECTION TOOL for Residential Aged Care

Duty of Care statement: please read aloud to resident before using the Tool

This Social Connection Tool is a set of questions to enable a conversation to understand your needs and wants for social connection.

The Tool enables conversations about the people who are important to you, when you have contact with them, and what kinds activities you enjoy doing with other people.

These questions aim to enable staff to understand the hobbies or interests that you enjoy. That could be just about anything – for example, singing, listening to music, art, cooking, getting outside in nature and so on. The questions in the Tool help to identify opportunities to have good social connection while living in your home in residential care.

The questions also ask you about how you enjoy connecting with others, such as in a group or just with one other person, and the rooms and places in the facility and the local community that you might like to spend time with others.

To get the best results, use the Tool when you feel relaxed, comfortable and calm. Very occasionally, there might be things about the Tool that make you feel uncomfortable or that brings on difficult emotions.

This is not the intention of the Tool, but it's possible that such feelings could occur. If you are experiencing distress and would like support while using the Tool or afterwards, we encourage you to speak to the Facility Manager or Lifestyle Coordinator. They can also refer you to an independent counselling service if you want to.

Alternatively, you can contact **Lifeline on 13 11 14.**

The Tool has been designed by people like you, living in residential facilities and the staff who care for and support them.

Production of the Social Connection Tool is by Uniting NSW.ACT, The Salvation Army Aged Care and Swinburne University's Social Innovation Research Institute.
